

DIGITAL MENU BOARDS

\$10 PER MONTH PER SCREEN

Khamu Solutions now offers an affordable solution for digital menus and other simple signage for your bar, restaurant, coffee shop or arena. We allow you to easily set up and change your displays on any TV that is connected to the Internet and that has the ability to display a web browser.

For many years, digital signage companies have charged high set-up and monthly fees to use their proprietary hardware and software just to display fairly simple content. We offer a way to reduce this cost tremendously by allowing you to use your own devices with our user-friendly platform. Also, you can easily make changes using any Internet connected device with browsing capabilities like a smartphone or tablet from anywhere in the world.

Choose from our range of standard templates or use our professional graphics to elegantly display your menus and other content in a dynamic fashion.

FEATURES

User Friendly Interface

Easily edit your menu boards by simply logging on to a user friendly back-end where you can add or change item names, backgrounds, prices and other info you have on the menu board.

Display Dynamic Content

Our display boards are perfect for dynamic menus - with features like scrolling tickers, you can quickly create specials on the fly or moving information displays to tell your customers about upcoming events and promotions.

MultiMedia Content

Elegantly display Videos, Social Media Feeds, Weather and World Clocks on your boards.

Lower Hardware Costs

By using web-based displays, we're able to save you hundreds, and sometimes thousands of dollars on expensive hardware. Buy your own TVs and Signage Players to save money.

Brand Consistency

Quickly duplicate and customize your content to enjoy brand consistency across multiple locations

Edit From Anywhere

Our web-based editing interface allows you to access and edit your menu board from anywhere you can connect to the internet. We'll also provide you with the tools you need to emulate the formatting of your menu board to ensure that your changes look exactly how you want them to when you're editing remotely.

Scheduled Displays

Scheduled displays can be set to change based on the time of day or the day of the week. Our boards are perfect for locations with special weekend menus, happy hours, or menus that change for breakfast, lunch, and dinner. Have a brand new idea? We're always excited to accommodate ingenuity. Bring your menus to life with minimal time needed to set-up, and no time needed for maintenance.
