

ONLINE ORDERING

Khamu Solutions offers KulaCart, a fully Integrated Online Ordering Solution that allows your customers to view your menu and place orders from their phones, tablets or computers. With our integration into Sapphire Point of Sale, these orders are sent straight to your kitchen as soon as they are placed.

FEATURES

- Fully integrated within Sapphire for instantaneous ticket printing
- Customized to seamlessly match your website
- Linked with the Sapphire Customer Database and Loyalty programs for powerful marketing opportunities
- Reports and analytics with automatic email notification
- Email and text message notification when the order is ready
- Mobile-enabled platform for easy ordering on the go
- Many features to support multi-location establishments
- 24/7 support
- Allows you to instantly create coupon and discount codes
- Define distinct delivery zones for your business
- Regular customers can quickly reorder their usual meals
- Add food images and nutritional information for your menu items

BENEFITS OF ONLINE ORDERING

- Orders are placed quickly and more accurately
- 24 hour access to your menu
- Convenience for your customers
- Higher ticket amounts and overall sales
- Build customer loyalty
- Reduce phone calls & labor costs
